HOTELS · RESTAURANTS · RESIDENCES

İSTANBUL · İNEGÖL

Crafted for *hospitality.*

Custom FF&E for hotels, resorts, restaurants and serviced apartments, designed, made, shipped and installed by one partner.

CUSTOM FF&E MANUFACTURER

ZE-OTEL.COM

One partner, from the first drawing to the *final installation.*

ZE-OTEL Hospitality designs, manufactures, ships and installs custom FF&E for hotels, resorts, restaurants and serviced apartments.

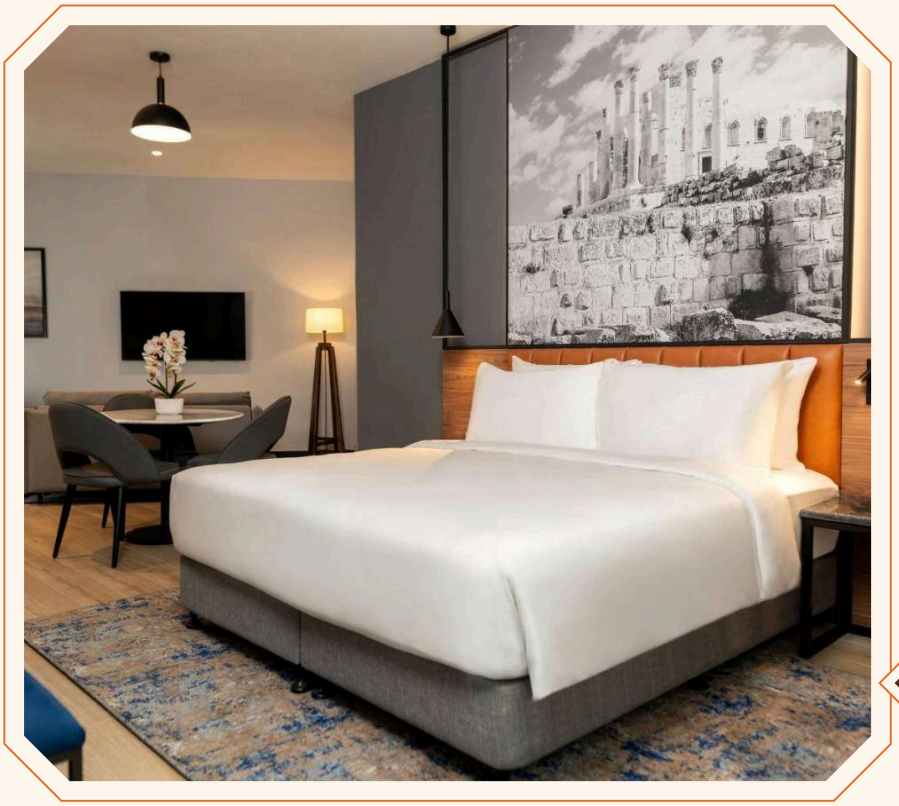

Our furniture is produced in İnegöl, Bursa, the heart of Turkey's furniture industry, and managed from our head office in Istanbul. Approved partner suppliers extend what our factory makes, so we can deliver the whole package under one contract and one point of contact: lighting, carpets and curtains, kitchen equipment and OS&E.

HOSPITALITY FURNITURE

Six reasons owners choose to *work with us.*

i — Our own factory

We produce in İnegöl, so we control quality, cost and schedule directly, with no middlemen between your project and the production line.

ii — Built to your design

Every piece follows your drawings, brand standards and budget, from dimensions and materials down to the last finish.

iii — Complete packages

Furniture, lighting, soft furnishings, kitchen equipment and OS&E come under one contract, so you deal with one supplier, not ten.

iv — Engineered for delivery

Shop drawings, production planning and shipping are worked out before production starts, so the timeline is realistic from day one.

v — Proven in the region

We have delivered projects in Jordan, Saudi Arabia, Oman, Lebanon, Palestine, Libya and Turkey, and we know each market's logistics and expectations.

vi — With you after handover

We stay available after installation for additions, replacements and refurbishment phases.

A clear process, from brief *to handover.*

1

Brief & design consultation

We study your drawings, BOQ, brand standards and budget, and advise on materials and value engineering.

2

Shop drawings

Detailed production drawings for every item, sent for your approval before anything is cut.

3

Samples & mock-up room

You approve finishes, fabrics and a full mock-up room before mass production.

4

Production in İnegöl

Manufacturing in our factory, with quality checks at every stage and regular progress updates.

5

Shipping & installation

Export packing, logistics to site and installation by our own team.

6

Handover & after-sales

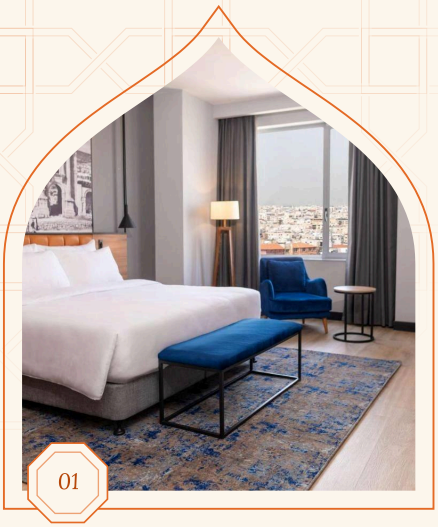

A final inspection with your team, then ongoing support for additions and replacements.

RADISSON BLU — ALL-DAY DINING
